## **Common Sense for the 21<sup>st</sup> Century**

For years a cancer has been spreading throughout our nation. The cancer runs deep and has infected every part of our society. **It is as if you were riding as a passenger in a car without your seat belt on and there is a catastrophic accident just ahead. Do you take the next exit or continue?**

Civilization, as we know it, is crumbling. Who are we? {Have we become a generation that only reacts to what the media tells us?} Please answer this. Would you stand up for what you believe in? Would you stand up like a man or woman with a strong faith in your beliefs? If not, then where is your heart? On what issues are you willing to take a stand on and **not** bend? Go ahead and say it, "I am a \_\_\_\_\_." Be yourself, well organized and identifiable. Become what God wants you to be for your family, neighbors, and this great country!

We have a majority, only if, we would realize this. Just what is it going to take for us to pull everyone together? Today, at this point, we've already had a severe loss of ethics and moral breakdown...How much have you and yours already taken? **A man and a woman should be willing to protect their family and to obey God.**

Right now, the voice of the average American is silent. Somebody once said, "For bad government all it takes is for good men to do nothing."

The only way to have a nation with good government is to support those you know and trust. Our nation's future is too important to place your trust in the lesser of two evils from a voter's guide. And what about this, "Is it the destiny of our country to lose respect for God?" **What price did our forefathers have to pay?** Scholars tell us, "They chose to promote freedom so you can live in peace." Are you proud to be an American?

The average American watches 28 hours of TV per week and these shows plus other types of entertainment are becoming every year more and more wicked!

For the promiscuous pleasure of both a man and a woman, teenagers, or college students we kill the innocent. When 2 come together life is conceived and living cells divide. These multiplying cells don't magically appear suddenly in a test tube. {Life is a gift, a priceless treasure that God has given to a man and a woman to share.} The result, with nine months of additional growth, is a child. Where do we go from here? Do we *continue* to send the innocent to heaven, before they're given the opportunity to breathe in Earth's air? Here is something for you to think about whether you call yourself a Republican, Democrat, Independent, or belong to another party. What will you say one day to God ***in your defense against the bloodshed*** He sees today on a daily basis: "She was too young for a child;" "They were not financially able to support the child;" "The man abandoned <http://www.7stepstoheaven.com> Etools ~ Common Sense for the 21st Century, page #1. 04/06/2004. the woman;” “The pregnancy was the result of a one night stand;” “Or the child will keep her from continuing her education.” In 1974 Roe vs. Wade, a few of our nation’s leaders made a choice to become wicked aborting the innocent. It was just a decision that our highest court made, leading us to become a nation for 30 years now stained in *red*, white, and blue. When will the war on our children stop? It’s now at 20 million+, 4 times the German holocaust, 25 times the genocide of Rwanda, and 200 times the death of Kurds in Iraq. If this isn’t bad enough, homosexuality is being promoted to our society. In Leviticus 18:22 and 20:13, we read “Thou shalt not lie with mankind, as with womankind: it is abomination. If a man also lie with mankind, as he lieth with a woman, both of them have committed an abomination...” Why are we promoting an abomination?

There are many other things this nation’s two leading political parties are doing and **not** telling you; like consistently spending more money each year than taxes collected. If a person knowingly ran up a huge credit card debt you’d say that’s bad, the same is occurring with our government and we keep on adding to the debt. And at the same time, both leading parties are selling off our American future wealth/prosperity out to others calling it free trade and global economics. Today, you need to realize that no other country is as creative or productive as this nation. When we get our mind set to it, we are the first nation on the moon, the leaders of technology, etc. “American know how” is what others want and your representatives have been giving our country away for years...just so these nations will be our friends. If a millionaire throws money around, he will have many friends around him day and night. When it’s all gone, he will wish for the good old days.

In 1776, American Colonists realized they were suffering from the effects of **taxation without representation**. {The same is true with today’s citizens and businesses.} We are forced to endure a complex income tax system. It’s unfair, complicated, and makes millions of us waste unproductive hours or days preparing the IRS forms. And because the tax code is written on thousand of pages, many pay an additional tax cost hiring professionals. Why? It’s all about the influence, control, and power of special interest groups! You should know that many American corporations do **not** pay taxes. Some say, “If you don’t have access to politicians, you’re at a loss!” A professor once said, “Over time, business growth will flock to the area with the least amount of corruption.” *Then why were we the place to be in the past? The answer, our level of corruption was less than other nations.* Here’s just one example of our increased level of corruption, US officials are helping foreign companies giving them a green light to bring their products into our nation with little or no import tax. ***This pattern puts products made in America at a disadvantage.*** If our government’s economic incompetence is allowed to continue, we will be unable to recover from our US deficits and our children will be placed at the mercy of foreign creditors. Voting in politicians who spend excessively and encourage a trade deficit is unfair to our future generations. When will we learn negative cash flow has consequences! Continue to cut taxes and spend more, that’s a recipe for disaster. “Do you want to be overtaken for pennies on the Euro, Yen, Dinar, Peso, Franc, Mark, or Pound?”

A young man throws a football into his family’s garden knocking over the plants. What’s the solution: to get rid of the football or to discipline the young man? For too long we as Christians have been just watching as our nation gets slowly destroyed! Here’s some scripture for us: 1<sup>st</sup> Corinthians 6:9-10 “Know ye not that the unrighteous shall not inherit the kingdom of God? **Be not deceived:** neither fornicators, nor idolaters, nor adulterers, nor effeminate, nor abusers of themselves with mankind, nor thieves, nor covetous, nor drunkards, nor revilers, nor extortioners, shall inherit the kingdom of God.” As Christians...Do we stand up and start to make a difference -or- continue to watch and take what the world gives us? After reading this document, if you have decided you’re now ready and it’s time to start working towards re-establishing good government, Great!!! Begin by finding God fearing men and women of good character then support them for political office. Or if you think the two major political parties are beyond a point of restoration and we would be better off to start a new party that believes “In God We Trust.” Please remember that good government takes manpower, money, and materials. The world would say, “**He who attends doesn’t have to show that he cares.**” God needs workers. Please, don’t continue to abandon Him! Life is simple...Accept what the world gives you -or- work for Christ, your family, and your community. Do you believe this and does this make common sense?

With love and peace, your brother and friend, Steven Sewell.
