

## Salvation Is A Gift From God

Death is just a doorway God uses to bring those who are saved unto Him.  
Those who take risks...seek change so tomorrow will not be like yesterday.

Look around you, where has God placed you today? There are souls to be saved.  
At a funeral with 100+ relatives and friends reflecting upon one who's passed on,  
The one stopped short of full salvation and those remaining need to know the truth.  
What will you do? What can be done without getting kicked out their presence?

Tonight, the sun will set and another day will end as in the other days before this.  
Did God give you an opportunity today to witness for Him or to speak up for Him?  
Will tomorrow be like yesterday? Or did He put you in a place to bring in change?  
Did you take the opportunity to speak up for Him? Risk takers bring about change.

Choices not chances determine our future...tell them salvation is a gift from God.
