

## **Something In-between**

Brackish water is neither fresh nor salt water,  
Instead it is a mixture of something in-between.

With our mouth, we can speak both good and harm  
And it's heartbreaking what has become commonplace.

Starting today, surround yourself with pleasant people  
Who with a few kind sweet words can build you up!

Encouragement is like a really powerful magnet,  
Doing positive things versus something in-between.

Ray House 2003
