

What is the emphasis where you worship?

Build it, remodel it, or renovate the building and they will come.
Send money around the world for someone else to teach the lost.
For years, our Lord was satisfied to have his dwelling place in a tent.
Yes, He tells us to teach the world and it starts in our local community.

If \$25,000,000 were donated to the church, how would it be invested?
Decision makers would use it to make the building larger or impressive.
We would hire more church staff and give pay raises to those employed.

***The largest asset of a church is its body. Teach them to do what money cannot buy.
And every dollar invested in evangelism tools for them --- will bring in a harvest of souls.***
